

# Industrial Pneumatic Applications

*Advanced Air System Technology™*

3P-060-M04-DC

- ✓ Point of Use Dryer
- ✓ Water Removal
- ✓ Oil Removal
- ✓ Eliminates Costly Downtime

## Applications:

Air valves, air cylinders, pneumatic positioners and air logic components which utilize shop air can be damaged by water, dirt and oil contamination. RTi units installed at the point of use will eliminate costly downtime.

Other Applications include: Air Clutches, Air Logic, Pneumatic Controls

## Options:

- 60, 90, 150 SCFM Available
- Differential Pressure Indicators
- Polycarbonate Bowl
- Automatic and Manual Drains Available
- Mounting Brackets

## Method:

Two stage unit with RTi's patented "Inverse Flow™" and "Depth Filtration" Technology. The 1st Stage element is composed of stainless steel and a "friction dryer". The 2nd Stage is a 0.01 micron "Grade 1" coalescer at a 99.9999998% efficiency.

## Features:

- Auto drains
- Metal bowls
- Patented elements
- Exceptional performance in dirty air

*Optional Mounting  
Bracket BK-1*
